## ASKS PREFERENCE

Railroad Administration Preparing Way for After the War Business. The industrial bureau of the Chattanooga chamber of commerce has received a letter from the office of the director-general of railroads submitting for its approval two systems of revised freight rates to go into effect after normal business conditions have returned with the cessation of hostilities. According to the letter, the government is submitting the two rate tables to practically every commercial and civic body of the south. Each organization is requested to state its preference and thus the government will determine the system to be used. Both tables are now under consideration.

## MANY APPLICATIONS

Despite Peace Prospect, Candidates Apply for Camp Fremont. Despite rumors and indications of peace on all sides, applications for entrance to Camp Fremont officers' training school are coming in rapidly to Lieut. Hugh L. C. Stevens, the new officer in charge of the work in the Chattanooga zone. The new officer is amply capable of judging the applicants who appear before him because of years of experience. Until a few months ago, when he took up his station at Atlanta, Stevens was a member of the American expeditionary forces and has seen active service in France. He was sent back to America to enter persons who were to be trained in the government's intention to open an officers' training school at Camp Fremont, California, on Dec. 1. Rumor ran rampant concerning its exact purpose. It was understood at the beginning that the course offered at the camp would be much shorter than the four-months course of Camp Gordon and others. It has now been announced that the regular duration of time will be cut in half, and the successful candidates of the Chattanooga zone will receive commissions as second lieutenants. This feature, together with the fact that the camp is to be located in a section of the country where ideal weather prevails at times when ice and snow are the reigning features of other climates, has served to attract a large number of applicants. The number has not been as great as hoped for, but, in consideration of the fact that so many men of Chattanooga with the proper qualifications for officers have already entered the service it is satisfactory. According to Lieut. Stevens, those who win commissions in the Fremont camp will see plenty of line service provided hostilities do not continue for next spring. The purpose of training such a large number of officers as will graduate from the camp is that they may be ready to be thrown in the line at any time.

do not capitulate before that time. Lieut. Jackson, of the university of Chattanooga, is still receiving applications for the camp. Lieut. Stevens being merely to give an added impulse to the work and relieve the school officer of much of the extra duty.

## "WHEN YOUR KIDNEYS FEEL LIKE LUMPS OF LEAD"

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and -oggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach aches, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night. Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—(Adv.)
